

A photograph of a modern house at dusk with people on a patio. The scene is lit by warm, ambient outdoor lighting. A woman in a light green top and jeans is walking on the left, carrying a basket of food. On the right, a man and a woman are seated at a table with drinks and food, smiling. The house has a dark door and a window, both illuminated by wall sconces. A tall, thin light fixture stands near the table. The sky is a deep blue.

**PHILIPS**

Home Lighting

Philips  
**Outdoor Collection**  
**2017**

A photograph of an outdoor patio area. In the foreground, a light-colored, round, three-legged table holds several items: a glass jar, a small white cup, and two patterned ceramic mugs. To the right, a white metal chair is partially visible. The background features a dark wooden wall with a horizontal slat design. A rectangular, illuminated light fixture is mounted on the wall, casting a warm glow. To the left, a dense wall of green ivy is visible.

Other than the functional requirements of lighting and security, Outdoor lighting truly goes beyond illumination. Outdoor lighting defines the silhouette of the home, the very character of it.

The right combination of design and placement can elevate and take the outdoor experience to an entire next level. The texture and vibrancy of the walls, the garden and the greenery, the fountain and everything else can be accentuated with the wide variety of archetypes available.

Philips lifestyle offers widest variety of Outdoor collection in all design languages. The lasting look and performance of these luminaires are a testimony great design, sturdy build, and impeccable finish.

# Provence

The neatly sculpted Provence Range of products is a reminiscent of Heritage design. The arched holder and thick edges forged out of high quality Aluminum project the strength and durability of the product. The brushed finish of the range give it a rugged look. All the elements of the design come together to give it a timeless look.
